*Puerto Princesa Subterranean River* is irrevocably the number 1 of all tourists spots in Palawan. Featuring karst (formed from dissolved limestone) mountain, it is very famous for its stalactites, stalagmites and rock formations. The underground river is subject to a tidal flow which directly goes out to South China Sea. It holds the record of the *Longest Underground River in the Philippines*.

*Barracuda Lake* has been named as a weird lake. The water temperature at the top is cold, middle is warm and bottom is hot. The changing in water temperatures can be seen in our naked eyes, experts calls it thermocline.

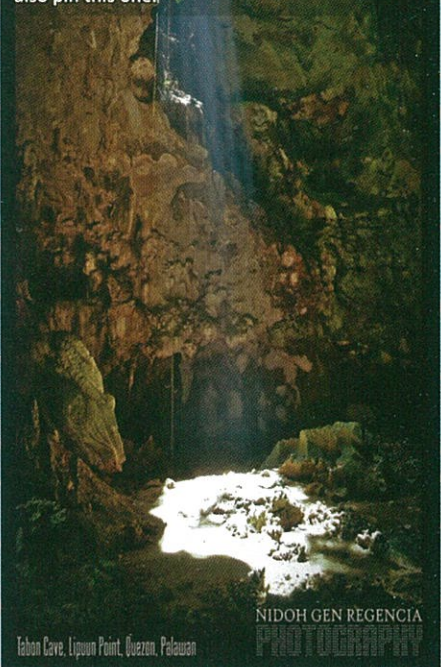

### Its more FUN in Palawan!

*Honda Bay* is a stunning island with white sand beaches which is also one of the famous tourist spots in Palawan. This is a great site for swimming and snorkeling. With clear waters, Honda Bay has many corals and starfish you will clearly see and enjoy.

*Tubbataha Reef* is one of the famous tourist spots in Palawan and known diving site in the Philippines. It is an atoll coral reef system which is divided into North and South. Vast diversity of fishes and marine lifeforms can be found in Tubbataha Reef. Whale Sharks, Manta Rays and Turtles are some of the marine lives you can see there.

*Tabon Caves* in Palawan are complex. It has a total of 29 explored caves and only 7 are open for public. This is the cave where the Tabon Man, oldest remnant of human inhabitant in the Philippines, was found. If you want to visit Puerto Princesa Subterranean River, you can also pin this one!

The Philippine Technological Council (PTC) is the umbrella organization of all accredited professional engineering organizations (APO) which are recognized by the Professional Regulation Commission (PRC), and self-certifying engineering professional organizations in the country.

PTC was formed in 1978 as one of the sectoral components of the Federation of Professional Associations (FPA now known as PFPA) and was incorporated in 1980 as non-stock and non-profit corporation under the Securities and Exchange Commission (SEC) by a group of concerned and selfless individuals who shared the common ideal of fostering the adoption and utilization of engineering technologies and solutions to improve the quality of life of peoples and to contribute to the socio-economic development agenda of the communities where they operate.

The purposes of the Council is to foster professional inter-disciplinary collaboration and interaction among the individual professionals and its member – organizations; to keep abreast with the latest developments in the rapidly changing world; and, to effectuate a united rapport among the members and with those of other professions, the government and the communities.

It acts as the national focal point for advocacies that impact on the engineering profession and engineering practice and for international linkages and continual improvement and promotion of global competitiveness of the Filipino engineers.

ASEAN  
FEDERATION OF  
ENGINEERING  
ORGANIZATIONS  
MEMBERS

The ASEAN FEDERATION OF ENGINEERING ORGANIZATION (AFEEO) is a non-governmental organization affiliated with the ASEAN Secretariat. Members of the AFEEO are Engineering Institutions and Union of Countries in ASEAN.

The objectives of AFEEO include the promotion of goodwill, understanding, cooperation and the exchange of ideas and experiences in the fields of education, science, engineering, technology environment, human resource, training and registration of professional engineers.

The Conference of the ASEAN Federation of Engineering Organizations (CAFEEO) has been held annually since 1982 by 10 ASEAN member countries, including Brunei, Indonesia, Malaysia, Singapore, Philippines, Thailand, Cambodia, Vietnam, Laos and Myanmar.

The AFEEO Conference has also attracted the participation of engineering organizations of the USA, Japan, Korea, Australia, China, India, Germany and the UK, the World Federation of Engineering Organizations (WFEO), ASEAN Academy of Engineering and Technology (AAET), the Federation of Engineering Institution of Asia and the Pacific (FEIAP), and, the UNESCO.
