

GETTING TO IPOH

There are many means to get to Ipoh, Perak either by rail, air or road. One can easily travel by train between Kuala Lumpur and Ipoh as there are daily trains that depart **from KL Sentral**. The train takes about 2 hours to reach Ipoh. ETS trains provide eight return trips for the Kuala Lumpur-Ipoh route daily. The ETS reduces travel time between Ipoh and Kuala Lumpur by about one hour.

Delegates are strongly recommended to take the ERL to KL Sentral and ETS to Ipoh or fly in from Singapore.

Booking Tickets for the ETS KL to Ipoh Train

To book your tickets on the ETS Electric Train from Kuala Lumpur to Ipoh, you can sometimes book them at the station on the day of travel if there are seats still available, but we would highly advise you to book them in advance. If you would like to make an advance booking it is much easier to book tickets online - either directly from the Keretapi Tanah Melayu Berhad (KTMB) website, or using an online ticket agent which offer a much quicker and easier booking process.

3:35 pm → 4:50 pm	✈ Scoot 482

Firefly and Tiger Air (Scoot) are the two (2) airlines that flies from Singapore to Ipoh and the timing for the 1 hour 15 min flight are as above

26th FEIAP GENERAL ASSEMBLY AND MSPC SYMPOSIUM & EXHIBITION WITH WFEO-CIC SEMINAR IPOH, PERAK 11-14 JULY 2018

WFEO – CIC IT Work Group

WHAT IS IT ABOUT ?

Date: 11-14 July 2018 (Wednesday – Friday)

Time: 4 days 3 nights in Ipoh, Perak

Venue: Hotel Casuarina @ Meru

Organised by:

- The Institution of Engineers, Malaysia (IEM)
- Federation of Engineering Institutions of Asia and the Pacific (FEIAP)
- Malaysian Service Providers Confederation (MSPC)

Co-organised by :

- WFEO-CIC – The Institution of Engineers, India

Celebrating 40 Years of FEIAP Success and Congratulations to 50th WFEO Birthday

WHEN AND WHERE ?

This year, The Institution of Engineers, Malaysia (IEM) will be hosting the 26th FEIAP General Assembly in mid July 2018 at one of the Ipoh best hotel. Held over three days, major highlights include the 26th **FEIAP General Assembly** ("GA") and the FEIAP Distinguished Dinner and award night ("Dinner"). The GA attracts more than 22 member economies from the Asia and Pacific region and beyond to discuss issues relating to engineering profession. Interesting sight-seeing places in Ipoh and a cave tour with a visit to one of the best university in Kampar will be part of this GA programme

During the Dinner, an eminent speaker will deliver a keynote speech on the development of the town built on Tin". Two/three distinguished engineers will be receiving the "FEIAP Engineer of the Year" award in recognition of their outstanding contributions to the engineering profession. The Dinner is expected to be attended by more than 300 engineers from the public and private sectors in the Asia Pacific regions including Europe and Africa.

The History of FEIAP

The Federation of Engineering Institutions of Southeast Asia and the Pacific (FEISEAP) is an international non-profit professional organization founded on 6 July 1978. Its establishment following an exploratory meeting convened and organised by The Engineering Institute of Thailand under The King's Patronage with the support of the United Nations Educational Scientific and Cultural Organization (UNESCO) on 3 July 1978 in Chiang Mai.

Being an independent umbrella organization for the engineering institutions in the Southeast Asia and the Pacific region, the objectives of FEISEAP are to encourage the application of technical progress to economic and social advancement throughout the world; to advance engineering as a profession in the interest of all people; and to foster peace throughout the world. The Federation was, itself, an international member of the World Federation of Engineering Organizations (WFEO), that pursues objectives similar to those of FEISEAP on a global scale.

The Constitution of the Federation has been amended several times at its biennial General Assemblies. At the 14th General Assembly of FEISEAP held in Cebu, Philippines, on 26 November, 2007 the question of the continuation of FEISEAP was discussed. It was unanimously agreed at that General Assembly, that the Federation should continue provided that its Constitution was reviewed to more clearly define its objectives and to broaden the scope of economies eligible for membership.

This version of the Constitution is the result of that review and consultation with all Members. It was unanimously adopted by the Special General Assembly of the Federation held in Hanoi, Viet Nam, on 2 June 2008. The Constitution incorporates a change of its name to the **Federation of Engineering Institutions of Asia and the Pacific (FEIAP)**.

FEIAP DELEGATES SPONSORED TOUR PROGRAMME for Day 1 and Day 3

Tourism Perak will sponsor two days sight-seeing trips for the FEIAP delegates. Ipoh is the capital city of Perak, situated 205 km north of Kuala Lumpur and strategically located in the heart of Kinta Valley. The city lies on the river banks of Kinta River surrounded by breathtaking limestone hill sand lush greenery terrains. Ipoh is the 4th largest city in Malaysia and is one of the fascinating tourist destinations in the Peninsular of Malaysia splendor with heritage, culture and nature. Ipoh is surrounded by beautiful limestone outcrops with wonderful cave temples. Today's Ipoh is well known for its excellent restaurants, hawkers, and famous local dishes. Because of this you will find famous 'Ipoh cuisine' hawkers at many places throughout Malaysia. (Please see leaflet attached).

Highlights of Joint Organisers

MSPC is wholly responsible for the formulation of common strategies, networking at national, regional and international levels for the Malaysian services industry. We help in promoting and stimulating demand for professional and business services in Malaysia and export markets.

We help accelerate the growth of the Services industry by:

- Enhancing the industry's competitiveness, productivity and efficiency;
- Developing the capacities and capabilities for the sector;
- Positioning Malaysia to be a regional centre of excellence;
- Engaging with the authorities, in the spirit of Malaysia Inc., to create a more conducive business environment for investments and export of Malaysian services;
- Outreaching, nurturing and partnering members' organizations in strengthening institutional support in development and promotion of industry.

The World Federation of Engineering Organizations is an international, non-governmental organization representing the engineering profession worldwide and is founded in 1968, under the auspices of the United Nations Educational, Scientific, and Cultural Organizations (UNESCO) in Paris, the World Federation of Engineering Organizations (WFEO) brings together national engineering organizations from over 90 nations and represents some 20 million engineers from around the world. WFEO has formed 10 standing technical committees dealing with various subjects with a focus on Sustainable Development Goals (SDG). One of the committees is Information and Communication (CIC) which has its objectives as technological advancements for sustainable developments.

WFEO-CIC, the Standing Committee on Information and Communication (CIC)- holds as a duty to lead forward Information and Communication Technology (ICT) in order for it to be applied globally, and focuses on developing countries where narrowing the gap has become essential.

WFEO-CIC is holding this seminar in association with The Institution of Engineers, Malaysia (IEM).

FEIAP Technical Visits

Date	Time	FEIAP Technical Visit
Day 3, (Friday) 13 July 2018	09.00 - 09.30	<i>Assemble, Boarding and Departure</i>
	09.30 - 12.00	Visit to Sam Poh Tong Proceed to Kellie Castle Visit to Tin Dredge Tourist Centre
	12.00 - 14.00	Lunch at Tanjung Tualang (Perak's Freshwater Prawns Town)
